The Story-Killers

A Common-Sense Case Against the Common Core

Terrence O. Moore

WHY WE MUST STOP THE COMMON CORE:

Superficiality,

Political Bias,

Lost Opportunities.

Monday, February 3, 6-8 p.m. Maumee Public Library

The Common Core English Standards now control the testing and curriculum in the public schools and a large number of private schools in over 40 states in the nation. These so-called standards were adopted with little public discussion, and parents are only now becoming aware of their effects in further dumbing down the nation's schools. In this engaging, readable, common-sense book, Hillsdale College professor and school founder Terrence O. Moore exposes the superficiality and clear political and moral bias of the Common Core by interpreting the standards and analyzing actual lessons now found in school textbooks. *The Story-Killers* reveals how the great stories of a great people are at risk and therefore the minds and souls of the nation's young people are at risk.

What is the Common Core? What is the real intent behind the Common Core English Standards? How are young people being robbed of the great stories of the Western and American tradition? What will be the effects of the story-killing Common Core on the minds and souls of the nation's young people? What does a great education—a true common core—look like?
